ATELIER

The Winter Whites Edit

Born from the chiaroscuro beauty of Fellini's *La Dolce Vita*, this capsule reimagines winter dressing through a cinematic lens - Ivory softened by silvery Roman light, silhouettes sculpted with the sensual restraint of Italy's most iconic screen sirens.

Echoing the discipline and quiet mastery of mid-century couture, each piece is shaped in our Italian atelier using the sculpted pattern work, hand-finishing, and purist construction techniques that defined the era. Created exclusively for our private clients, it reflects the Maison's devotion to preserving the spirit of that golden age in the modern landscape.
